Please briefly explain your role at the conference.

Please briefly explain how this work is connected to the purpose of the Yetadel Foundation Endowment. (See below.)

The Yetadel Foundation endowment is
... to promote the study of the foundations and philosophy of natural sciences and the study of cognition. Particular areas of study may include artificial intelligence and neural networks, and the philosophical foundations of physics, chemistry, genetics, molecular biology, neuroscience, optical science, and non-linear dynamics. The Fund may be used [*inter alia*] to support exceptional graduate students by... defraying travel expenses for a presentation of their work at international conferences.
